OBJECTIVE

I am seeking an opportunity in the technology field, with a strong interest in specializing in Front-End or Full Stack development. I have an affinity for interface development, UX/UI, and design, aiming to create functional, intuitive, and well-structured solutions.

EDUCATION

Fatec – Faculty of Technology

Multiplatform Software Development (Technologist)

Registro, SP (On-site)

Feb 2024 – Dec 2026

IFSP – Federal Institute of São Paulo

Technical Degree in Mechatronics integrated with High School

Registro, SP (On-site)

Feb 2019 – Dec 2021

SKILLS

- **Programming Languages:** JavaScript, TypeScript, HTML, CSS
- **Front-end:** React.js, React Native, Next.js, Bootstrap
- **Back-end:** Node.js, Express.js
- **Databases:** MongoDB, SQL, MySQL
- **Tools and Platforms:** Git, GitHub, Figma, Scrum
- **Languages:** Portuguese (Native), English (TOEIC – B2)

EXPERIENCE (Projects)

Movie Gallery – Node.js, Express.js, Sequelize

galeria-filmes-nodejs

- Movie gallery inspired by the MUBI streaming platform, where users can add films to the catalog including poster image, title, director, country, and release year.

NitrusLeaf – Vitalliz — React.js, Node.js, Express.js

- Team-based application project that uses Artificial Intelligence to identify copper and manganese deficiencies in tangerine leaves. I contributed to the team branding, application logo, and mobile app screen prototyping using Figma.
- Presented at Casa Oracle in São Paulo, where it achieved 2nd place among three projects in 2024.
